

Making Slime

INGREDIENTS: SMALL AMOUNT

¼ teaspoon baking soda

100 ml glue

5 teaspoons contact lens solution

Food colour

Food flavour

BIG BATCH:

1 cup glue

1 teaspoon baking soda

10 teaspoon contact lens solution (to start with and keep adding to get the right consistency)

Food colour/ flavour

PROCEDURE:

1. Start putting the baking soda in the container.
2. Put glue, food colour, and food flavour in.
3. Mix well.
4. Add contact lens solution.
5. If it is still sticky add a few drops of contact lens solution until you get to the right consistency.

Enjoy! 😊
